September 2021

# **CURRICULUM VITAE**

# T.-C. Wu, M.D., Ph.D.

#### The Johns Hopkins University School of Medicine

#### **DEMOGRAPHIC AND PERSONAL INFORMATION**

#### **Current Academic and Hospital Appointments:**

Professor of Pathology, The Johns Hopkins University School of Medicine Professor of Oncology, The Johns Hopkins University School of Medicine Professor of Obstetrics and Gynecology, The Johns Hopkins University School of Medicine Professor of Molecular Microbiology and Immunology, The Johns Hopkins University, Bloomberg School of Public Health Director of Gynecologic Pathology, Department of Pathology, The Johns Hopkins University School of Medicine

Pathologist, The Johns Hopkins Hospital

#### **Personal Data:**

Work Address: Telephone (office):	The Johns Hopkins University, School of Medicine Cancer Research Building II, Room 309 1550 Orleans Street Baltimore, Maryland 21205 410-614-3899
Fax (office): E-mail:	443-287-4295 wutc@jhmi.edu
Education:	
9/75-7/82	M.D., National Taiwan University College of Medicine
7/84-5/85	M.P.H., Epidemiology The Johns Hopkins University School of Hygiene and Public Health
6/85-5/89	Ph.D., Molecular Virology The Johns Hopkins University School of Hygiene and Public Health Dissertation Topic: Transcriptional regulatory elements in the non-coding region of human papillomavirus type 6.
<b>Training</b> : 7/89-6/90	Intern Anatomic Pathology Department of Pathology

7/90-6/92	The Johns Hopkins Hospital Baltimore, Maryland Resident Anatomic Pathology
	Department of Pathology The Johns Hopkins Hospital
7/92-6/95	Clinical Fellow Division of Gynecologic Pathology Department of Pathology The Johns Hopkins Hospital Baltimore, Maryland
<b>Professional Experience</b> :	
June 1995 - Present	Pathologist The Johns Hopkins Hospital, Surgical Pathology Sign-out specimens from Gynecologic Pathology
June 1995 - June 1997	Assistant Professor of Pathology The Johns Hopkins University School of Medicine
October 1996-July 1997	Assistant Professor of Oncology The Johns Hopkins University School of Medicine
December 1996-July 1997	Assistant Professor of Molecular Microbiology and Immunology The Johns Hopkins University, School of Hygiene and Public Health
July 1997-October 1997	Assistant Professor of Obstetrics and Gynecology The Johns Hopkins University School of Medicine
July 1997 – July 2003	Associate Professor of Pathology The Johns Hopkins University School of Medicine
July 1997 – July 2003	Associate Professor of Oncology The Johns Hopkins University School of Medicine
July 1997 – July 2003	Associate Professor of Molecular Microbiology and Immunology The Johns Hopkins University, School of Hygiene and Public Health
Oct. 1997 – July 2003	Associate Professor of Obstetrics and Gynecology The Johns Hopkins University School of Medicine
July 2003 – present	Professor of Pathology, Oncology, Obstetrics and Gynecology, and Molecular Microbiology and Immunology The Johns Hopkins Medical Institutions

# **RESEARCH ACTIVITIES**

**Bibliography (Publications):** <u>Peer-Reviewed Scientific Articles:</u>

- J.M. McDonnell, P.J. McDonnell, P. Mounts, T.-C. Wu, and R. Green. (1986) Demonstration of papillomavirus capsid antigen in human conjunctival neoplasia. Arch of Ophthalmo. 104: 1801-1805.

# **Inventions and Patents:**

- US Patent number: 6,734,173
   Title: Fusion of Heat shock protein 70 to antigens enhance the potency of DNA vaccines
   Issue Date: 05/11/04
   Investigators: Tzyy-Choou Wu, Chien-Fu Hung
   Status: Exclusively Licensed by Papivax Biotech Inc.
- 2. Australia Patent number: 784605 Title: Chimeric Immunogenicity Compositions and Nucleic Acids Encoding Them

Issue Date: 5/11/06 Investigators: Tzyy-Choou Wu, Chien-Fu Hung Status: Exclusively Licensed by Papivax Biotech Inc.

- European/UK/Ireland Patent number: 1,222,289
   Title: Chimeric Immunogenicity Compositions and Nucleic Acids Encoding Them Issue Date: 4/16/08
   Investigators: Tzyy-Choou Wu, Chien-Fu Hung Status: Exclusively Licensed by Papivax Biotech Inc.
- US Patent number: 7,342,002
   Title: Molecular Vaccine Linking An Endoplasmic Reticulum Chaperone Polypeptide To An Antigen
   Issue Date: 03/11/08
   Investigators: Tzyy-Choou Wu, Chien-Fu Hung
   Status: Exclusively Licensed by Papivax Biotech Inc.
- 5. US Patent number: 8,007,781 Title: Fusion of Calreticulin (CRT) to Antigen Issue Date: 8/30/11 Investigators: Tzyy-Choou Wu, Chien-Fu Hung Status: Exclusively Licensed by Papivax Biotech Inc.
- US Patent number: 7,318,928
   Title: Molecular Vaccine Linking Intercellular Spreading Protein to an Antigen Issue Date: 01/15/08
   Investigators: Tzyy-Choou Wu, Chien-Fu Hung Status: Available from Hopkins Tech Transfer office.
- 7. US Patent number: 7,557,200

  Title: Superior Molecular Vaccine Based on Self-Replication, RNA, Suicidal DNA or Naked DNA Vector, that Links Antigen with Polypeptide that Promotes Antigen
  Presentation
  Issue Date: 07/07/09
  Investigators: Tzyy-Choou Wu, Chien-Fu Hung
  Status: Available from Hopkins Tech Transfer office.
- 8. US Patent number: 8,128,922 Title: Superior Molecular Vaccine Linking the Translocation Domain of the Bacterial Toxin in an Antigen Issue Date: 03/06/12 Investigators: Tzyy-Choou Wu, Chien-Fu Hung Status: Available from Hopkins Tech Transfer office.
- 9. Japan Patent number : 5,087,201

Title: Molecular Vaccine Linking An Endoplasmic Reticulum Chaperone Polypeptide To An Antigen Issue Date: 9/14/12 Investigators: Tzyy-Choou Wu, Chien-Fu Hung Status: Exclusively Licensed by Papivax Biotech Inc.

- Italy/UK/Sweden/Switzerland/Spain/Finland/Netherlands/Denmark/France/ European/Germany Patent number: 1363938 Title: Molecular Vaccine Linking An Endoplasmic Reticulum Chaperon Polypeptide To An Antigen Issue Date: 12/11/13 Inventors: Tzyy-Choou Wu, Chien-Fu Hung Status: Exclusively Licensed by Papivax Biotech Inc.
- Canada Patent number: 2,388,045
   Title: Chimeric Immunogenic Compositions and Nucleic Acids Encoding Them Issue Date: 2/11/14
   Inventors: Tzyy-Choou Wu, Chien-Fu Hung
   Status: Exclusively Licensed by Papivax Biotech Inc.
- 12. Australia Patent number : 2010246273
   Title: Compositions and Methods for Enhancing Antigen Specific Immune Responses
   Issue Date: 07/14/14
   Investigators: Tzyy-Choou Wu, Chien-Fu Hung
   Status: Available from Hopkins Tech Transfer office
- 13. Japan Patent number: 5690814 Title: Compositions and Methods for Enhancing Antigen-Specific Immune Responses Issue Date: 02/06/15 Inventors: Tzyy-Choou Wu, Chien-Fu Hung Status: Available from Hopkins Tech Transfer office
- European Patent number: 1644048

   Title: Anti-cancer DNA Vaccine Employing Plasmids Encoding Signal Sequence, Mutant
   Oncoportein Antigen, and Heat Shock Protein
   Issue Date: 04/29/15
   Inventors: Tzyy-Choou Wu, Chien-Fu Hung
   Status: Available from Hopkins Tech Transfer office
- US Patent number: 9,085,638
   Title: DNA Vaccine Enhancement with MHC Class II Activators Issue Date: 07/21/15
   Investigators: Tzyy-Choou Wu, Chien-Fu Hung Status: Available from Hopkins Tech Transfer office
- 16. US Patent number: 9,296,784

Title: Mesothelin Vaccines and Model Systems Issue Date: 03/29/16 Inventors: Tzyy-Choou Wu, Chien-Fu Hung Status: Exclusively Licensed by ImmunoCellular Therapeutics and Aduro

- 17. Canada Patent number: 2,417,214
  Title: Molecular Vaccine Linking An Endoplasmic Reticulum Chaperon Polypeptide To An Antigen
  Issue Date: 06/21/16
  Inventors: Tzyy-Choou Wu, Chien-Fu Hung
  Status: Exclusively Licensed by Papivax Biotech Inc.
- US Patent number: 9,561,275
   Title: Selectively Targeted Coating of Tumor Cells with Foreign Antigenic Peptide Renders
   Tumor Cells Susceptible to Antigen-specific CD8+ T Cell-mediated Killing
   Issue Date: 02/07/17
   Inventors: Tzyy-Choou Wu, Chien-Fu Hung
   Status: Available from Hopkins Tech Transfer office
- 19. US Patent number: 9,701,725
   Title: Anti-Cancer DNA Vaccine Employing Plasmids Encoding Signal Sequence, Mutatnt
   Oncoprotein Antigen, And Heat Shock Protien
   Issue Date: 07/11/17
   Investigators: Tzyy-Choou Wu, Chien-Fu Hung
   Status: Licensing agreement currently under negotiation
- 20. US Patent number 10,350,282
   Title: Mesothelin Vaccines and Model Systems
   Issue Date: 07/16/19
   Investigators: Tzyy-Choou Wu, Chien-Fu Hung, Elizabeth Jaffee, Ralph H. Hruban

# **Extramural Sponsorship**:

# A) Current Support:

Program Director: T.-C. Wu Source and Identification Number: NIH/NCI P50CA098252 Title: SPORE in Cervical Cancer Role on project: Program Director, Co-Leader Dates: 09/01/19 - 08/31/24 Project 3 \$91,658 5% Effort Core A \$120,729 5% Effort Career Enhancement Project \$82,251 3% Effort Dev. Research Project \$89,502 3% Effort

The overall goal is to reduce the incidence of cervical cancer in the next 5 years by improving treatment outcomes in patients with HPV-associated cervical cancer and its precursor lesions, and protecting the next generation of women from oncogenic HPV infection and its sequelae using an interdisciplinary team of investigators."

# Principal Investigator: T.-C. Wu

Source and Identification Number: NIH/NCI R01CA237067

Title: Development of novel spontaneous HPV cervicovaginal carcinoma models for cancer immunotherapy

Role on project: Principal Investigator

Dates: 04/01/2019 - 3/31/2024

Annual Direct Costs: \$450,000

#### 25% Effort

The primary goals of this proposal is to create novel preclinical spontaneous HPV cervicovaginal carcinoma models based on the incorporation and expression of clinical relevant immunosuppressive molecules that are over-expressed in clinical HPV16+ cervical squamous cell carcinoma.

#### Principal Investigator: T.-C. Wu

Source and Identification Number: Harrington Discovery Institute

Title: Albumin-Flt3-induced Cross-Presenting Dendritic Cell Expansion in Antitumor Immunity Role on project: Principal Investigator

Dates: 01/01/2019 - 12/31/2020

Annual Direct Costs: \$100,000 1% Effort

The primary goals of this study is to investigate the use of Alb-Flt3L as a strategy to augment tumor-specific immunity by expanding cross-presenting DCs and consequently ablate tumor burden in a wide array of tumor types.

# Program Director: T.-C. Wu

Source and Identification Number: AbbVie Title: Control of Ovarian Cancer Through Adaptive and Innate Immunity Role on project: Principal Investigator Dates: 12/01/17 - 11/30/21 Annual Direct Costs: \$250,000 10% Effort The primary goals of this proposal are to bypass the obstacles of immune tolerances and immune suppression of tumor, and elicit both innate and adaptive immunity to control tumors.

B) Pending Awards:

Principal Investigator: T.-C. Wu

Source and Identification Number: NIH R01DE029841

Title: Immunotherapy for a spontaneous HPV-associated head and neck carcinoma model

Role on project: Principal Investigator

Dates: 07/01/20 - 06/30/2025

Annual Direct Costs: \$500,000

10% Effort Specific Aims of project: We propose to create a novel, preclinical, spontaneous HPV16(+) oropharyngeal carcinoma model based on the incorporation and expression of clinically relevant immunosuppressive molecules that are over-expressed in clinical HPV16(+) oropharyngeal squamous cell carcinoma.

Principal Investigator: Deyin Xing

Source and Identification Number: NIH/NCI R01

Title: A novel, spontaneous ovarian serous carcinoma model for the development of innovative cancer immunotherapies.

Role on project: Co-Investigator

Dates: 07/01/20 - 06/30/2025

Annual Direct Costs: \$450,000 5% Effort

Specific Aims of project: We propose to validate our novel, preclinical, spontaneous ovarian serous carcinoma models that will enable researchers to perform suitable testing for relevant human immune responses, thereby addressing a major barrier in the development of clinically relevant ovarian cancer immunotherapies.

Principal Investigator: T.-C. Wu

Source and Identification Number: NIH R01CA255182

Title: Impact of ATP5H and Mitochondrial Bioenergetics on Cancer Immunity and Therapy

Role on project: Principal Investigator

Dates: 09/01/20 - 08/31/2025

Annual Direct Costs: \$250,000 10% Effort

Specific Aims of project: We propose to investigate the loss of ATP5H within the context of cancer immune escape, immune tumor microenvironment, epigenetic changes on ATP synthase functioning and immune resistance, and to investigate potential treatment strategies that rectify ATP synthase pathways and enable CTL-mediated clearance of tumor.

C) Previous Awarded Grants:

Program Director: T.-C. Wu

Source and Identification Number: P20 CA192988

Title: 2/2-Howard University/Johns Hopkins Partnership in HPV - Related Cancer Research Role: Program Director, Project 1 Co-Leader

Dates: 10/01/14- 09/30/19

Annual Direct Costs: \$1

\$137,500 13% Effort

The goal of this study is to aid in the expansion and development of a collaborative effort shared between Howard University and Johns Hopkins University Investigators to develop molecular biologic and immunologic expertise in the Howard research community in the study of human papilloma virus related head and neck cancers.

Principal Investigator: T.-C. Wu Source and Identification Number: NIH R01CA183040 Title: Ovarian Cancer Gene Therapy Using HPV Pseudovirion. Role on project: Principal Investigator Dates: 05/01/14 – 04/30/2019 Annual Direct Costs: \$207,000 16% Effort Specific Aims of project: To use HPV pseudovirions to facilitate the targeted delivery of an innovative chimeric protein that will coat both infected and uninfected tumor cells with a common foreign viral epitope as well as the Fc portion of the immunoglobulin G to induce adaptive and innate immune responses respectively to control ovarian tumors.

Principal Investigator: T.-C. Wu Source and identifying No.: R21CA180953 Title: Immune Evasion by Nanog-Mediated Changes to the Tumor Microenvironment Role on project: Principal Investigator Dates: 12/01/14-11/30/17 (NCE) Annual Direct Costs: \$108,750 8% Effort Specific Aims of project: The aim of this project is to characterize impact of the up regulation of nanog on the tumor microenvironment.

Principal Investigator: T.-C. Wu Source and Identification Number: NIH/NCI RO1CA114425 Title: Enhancing HPV-16 E6/E7-specific antitumor immunity. Role on project: Principal Investigator Dates: 09/01/12 - 08/31/17 Annual Direct Costs: \$176,030 12% Effort Specific Aims of project: The major goal of this project is to generate and characterize HPV-16 E6 & E7 specific DNA vaccine and compare their therapeutic effects in a murine E6/E7-expressing tumor models.

Principal Investigator: William Nelson Source and identifying No.: NIH/NCI P30CA006973 Title: Regional Oncology Research Center Oncology Center Support Grant Role on project: Co-investigator Dates: 05/01/12-04/30/17 Annual Direct Costs: \$6,883,282 5% Effort Specific Aims of project: To serve as a senior mentor for juvenile investigators in the Cancer Center and to team up with clinicians to generate relevant preclinical data for further clinical translation.

Principal Investigator: T.-C. Wu

Source and Identification Number: NIH 1R21CA178255 Title: Upregulation of Nanog as an Innovative Mechanism for Cancer Drug Resistance. Role on project: Principal Investigator Dates: 04/01/14 – 03/31/16 Annual Direct Costs: \$130,500 8% Effort Specific Aims of project: To characterize the role of Nanog, a transcription factor involved in the self-renewal of pluripotent stem cells, in the escape of tumors from host immune defenses. This study aims to establish that immune escape and drug resistance in cancer emerge through a central pathway orchestrated by Nanog.

Program Director: David Sidransky

Source and Identification Number: NIH/NCI P50DE019032 Title: Head & Neck Cancer SPORE. Role on project: Co-PI of Project 4 Dates: 08/13/2012- 07/31/2017 Annual Direct Costs: \$200,000 10% Effort HPV Vaccine and Correlates of Response Specific Aims of project: To evaluate the safety/toxicity of combining cyclophosphamide and the CRT/E7 DNA Vaccine after completion of chemoradiation therapy to patients with HPV-Associated head and neck cancer.

## Program Director: T.-C. Wu

Source and Identification Number: NIH/NCI 2 P50CA098252 Title: SPORE in Cervical Cancer. Role on project: SPORE Director, Co-Principal Investigator on Project III, Project IV and Administrative/Communication Core Dates: 09/30/09-08/31/14 Annual Direct Costs: 10% Effort Project III \$169,200 Project IV \$232,914 10% Effort Administrative Core A \$127,512 5% Effort Career Dev. Administration \$79,870 2% Effort Dev. Research Program \$84,740 2% Effort Specific Aims of project: To bring together a interdisciplinary team of investigators who are

dedicated to translational research of cervical cancer and to have impact on the screening, diagnosis, prevention and treatment of cervical cancer in 5 years.

Principal Investigator:Richard Roden Source and Identification Number: V Foundation for Cancer Research Title: Treatment of Head & Neck Cancer w/HPV Vaccine. Role on project: Co-Investigator Dates: 11/01/2011-10/31/2014 Annual Direct Costs: \$180,000 5% Effort Specific Aims of project: To perform clinical trials using a chimeric HPV vaccine TA-CIN in patients with HPV-16 positive head and neck cancer or HPV-16 positive vulvar intraepithelial neoplasia.

Program Director: David Sidransky Source and identifying No.: NIH/NCI 2 P50CA96784 Title: Brain, Head & Neck, Lymphoma & Prostate Cancer Spores. Role on project: Co-Principal Investigator on project 3. Effort- 8% Dates and costs of entire project: 09/01/07 - 08/31/12 Direct: \$ 1,250,000 Dates and costs of current year: 09/01/07 - 08/31/08 Direct: \$ 250,000 Specific aims of project: To perform HPV vaccine clinical trials and correlate immune responses with clinical outcome in patients with advanced head and neck squamous cell carcinoma.

## Principal Investigator: T.-C. Wu

Source and identifying No.: Melanoma Research Alliance M08110545099 Title: Treatment of melanoma combining cancer gene therapy and immunotherapy Role on project: Principal Investigator Effort- 10% Dates and costs of entire project: 06/01/2009-05/31/2012 Direct: \$ 225,000 Specific Aims: Development of innovative gene therapy for the control of melanoma in a preclinical model.

Principal Investigator: T.-C. Wu

Source and identifying No.: NIH/NCI 5R21AI085380

Title: Laser treatment to enhance therapeutic HPV DNA vaccine potency

Role on project: Principal Investigator

Effort- 10%

Dates and costs of entire project: 06/01/2011-05/31/2012 Direct: \$ 213,471

Specific Aims: To determine if intradermal administration of the therapeutic HPV DNA vaccine via injection or gene gun followed by femtosecond laser beam treatment would significantly enhance the transfection efficiency of the DNA vaccine resulting in enhanced HPV antigen-specific T cell-mediated immune responses and antitumor effects in vivo.

Program Director: Elizabeth M. Jaffee

Source and identifying No.: NCI/NCDDG 1U19CA113341

Title: mesothelin-specific ovarian cancer vaccines

Role on project: Principal Investigator of project 2.

Effort-15%

Dates and costs of entire project: 05/01/05-04/30/10 Direct: \$ 750,000

Dates and costs of current year: 05/01/05 - 04/30/06 Direct: \$150,000

Specific aims of project: The major goal of this project is to generate an mesothelin-specific DNA vaccine as a therapeutic cancer vaccine for mesothelin-expressing ovarian cancers.

Principal Investigator: T.-C. Wu

Source and identifying No.: NIH/NCI 1 RO1CA114425

Title: Enhancing HPV-16 E6-specific antitumor immunity

Role on project: Principal Investigator.

Effort-20%

Dates and costs of entire project: 04/01/05 - 03/31/10 Direct: \$ 1,250,000

Dates and costs of current year: 04/01/05 - 03/31/06 Direct: \$ 250,000

Specific aims of project: The major goal of this project is to generate and characterize HPV-16 E6 specific DNA vaccine and compare their therapeutic effects in a murine E6-expressing tumor models.

Principal Investigator: T.-C. Wu

Source and identifying No.: NIH/NIAID 1 UO1AI070346

Title: Development of Optimized/Adjuvanted Smallpox DNA Vaccine (Gene Gun)

Role on project: Principal Investigator.

Effort-15%

Dates and costs of entire project: 04/01/06 - 03/31/10 Direct: \$ 1,200,133 Dates and costs of current year: 04/01/06 - 03/31/07 Direct: \$ 250,000 Specific aims of project: The major goal of this project is to develop an optimized smallpox DNA targeting 4 poxvirus antigen using gene gun in a nonhuman primate model.

#### Program Director: Joseph Califano

Source and identifying No.: NIH/NCI P20MI/CCP

Title: HU/JHU Head and Neck Cancer Translational Research and Education Program

Role on project: Co-Investigator.

Effort-7%

Dates and costs of entire project: 12/01/05 - 11/30/09 Direct: \$ 522,954

Dates and costs of current year: 12/01/05 - 11/30/06 Direct: \$ 125,000

Specific aims of project: The major goal of this proposal is to create a collaborative environment to enhance translational research and education related to head and neck cancer at the Howard University Medical Institutions through a highly collaborative effort between the Howard University Medical Institutions and the Head and Neck Cancer Center at the Johns Hopkins Medical Institutions.

## Program Director: T.-C. Wu

Source and identifying No.: NIH/NCI 1 P50CA098252

Title: SPORE in Cervical Cancer.

Role on project: SPORE director, Co-Principal Investigator on project 5 and 6 and

Administrative/Communication Core

Effort- 30%

Dates and costs of entire project: 09/30/03 - 8/31/08 Direct: \$ 9,726,689

Dates and costs of current year: 09/30/03 - 8/31/04 Direct: \$ 1,822,700

Specific aims of project: To bring together a interdisciplinary team of investigators who are dedicated to translational research of cervical cancer and to have impact on the screening, diagnosis, prevention and treatment of cervical cancer in 5 years.

Program Director: Keerti Shah

Source and identifying No.: NIH NIAID IPO1A13458201

Title: Protective immunological mechanisms against STD

Role on project: Co-Investigator

Effort-15%

Dates and costs of entire project: 09/01/93 - 08/31/98 Direct: 471,101

Dates and costs of current year: 09/01/97 - 08/31/98 Direct: 80, 300

Specific aims of project: T cell responses to HPV oncoproteins in cervical cancer

Program Director: Robert Siliciano Source and identifying No.: NIH NIAID PO1A137934 Title: Novel strategies for enhancing antigen processing and presentation Role on project: Co-Investigator. Effort-15% Dates and costs of entire project: 04/01/95 - 03/31/99 Direct: 244,633 Dates and costs of current year: 04/01/97 - 03/31/98 Direct: 57,725 Specific aims of project: In vivo targeting of antigen to antigen presenting cells

Program Director: Drew M. Pardoll

Source and identifying No.: NIH NCDDG RFA CA-95-020

Title: Antigen specific vaccines for breast and cervical cancers.

Role on project: Principal Investigator.

Effort- 30%

Dates and costs of entire project: 09/01/96 - 08/31/00 Direct: \$475,421

Dates and costs of current year: 09/01/97 - 08/31/98 Direct: \$ 111,957

Specific aims of project: To develop and compare antigen specific cancer vaccines for breast and cervical cancers using adenoviral, vaccinia and Listeria vectors.

Principal Investigator: T.-C. Wu

Source and identifying No.: ACS IM-83156

Title: Novel strategies to enhance antigen specific cancer immunotherapy.

Your role on project: Principal Investigator.

Effort- 30%

Dates and costs of entire project: 01/01/97 - 12/31/99 Direct: \$ 313,304

Dates and costs of current year: 01/01/97 - 12/31/97 Direct: \$ 100,089

Specific aims of project: To generate E7 specific antitumor immunity using vaccinia vector and to explore the mechanisms of antitumor immunity using cytokine knockout mice.

Principal Investigator: Shau-Ku Huang

Source and identifying No.: NIH/NIAID RFA AI-95011

Title: Mucosal gene transfer in murine airway allergic response

Role on project: Co-Investigator.

Effort-3%

Dates and costs of entire project: 12/01/96 - 07/31/01 Direct: \$485,319

Dates and costs of current year: 08/01/98 - 07/31/99 Direct: \$ 112,492

Specific aims of project: The goal of this project is to determine the role of IFN-gamma in the regulation of Ag-induced airway inflammation and bronchial hyperactivity by transfer of IFN-gamma genes directly into the lung mucosal cells.

Program Director: Fred Sanfilippo

Source and identifying No.: NIH/NHLBI

Title: Mechanisms of accelerated graft arteriosclerosis.

Role on project: Co-Investigator.

Effort-10%

Dates and costs of entire project: 05/01/97-04/30/01. Direct: \$ 983,857

Dates and costs of current year: 05/01/99-04/30/00. Direct: \$ 181,365

Specific aims of project: To identify the mechanisms by which various etiologic risk

factorcontribute to AGA, and based on these findings, to define appropriate therapeutic methods to treat or prevent AGA.

Principal Investigator: T.-C. Wu Source and identifying No.: NIH/NCI 1RO1CA72631 Title: Enhancement of HPV-16 E6 & E7-specific antitumor immunity.

Role on project: Principal Investigator.

Effort- 25%

Dates and costs of entire project: 01/01/97 - 12/31/01 Direct: \$ 574,263

Dates and costs of current year: 01/01/01 - 12/31/01 Direct: \$ 95,663

Specific aims of project: To generate E6 and E7 chimeric proteins and to enhance E6 and E7 specific immunity using vaccinia vector.

## Principal Investigator: T.-C. Wu

Source and identifying No.: Cancer Research Institute

Title: Development of T cell-mediated immunological assays for human papillomavirus vaccines Role on project: Principal Investigator.

Effort-10%

Dates and costs of entire project: 12/15/98 - 12/14/01 Direct: \$ 299,502

Dates and costs of current year: 12/15/00 - 12/14/01 Direct: \$ 99,505

Specific aims of project: The major goal of this project is to develop and utilize assays to measure T cell-mediated immune responses in patients vaccinated with HPV vaccines.

## Principal Investigator: T.-C. Wu

Source and identifying No.: American Cancer Society RSG-01-079-01-LIB

Title: Antigen Specific Cancer Immunotherapy Using Self-Replicating RNA Vaccines

Role on project: Principal Investigator.

Effort-20%

Dates and costs of entire project: 01/01/01 - 12/31/03 Direct: \$ 447,000

Dates and costs of current year: 01/01/01 - 12/31/01 Direct: \$ 117,947

Specific aims of project: The major goal of this project is to generate and characterize a self-replicating Semliki Forest Virus RNA replicon containing various chimeric HPV-16 E7 gene and compare their therapeutic effects in a murine E7-expressing tumor models.

Principal Investigator: T.-C. Wu

Source and identifying No.: NIH/NCI 1 RO1CA83706

Title: Preventive/Therapeutic HPV Vaccine Development

Role on project: Principal Investigator.

Effort-10%

Dates and costs of entire project: 12/01/99 - 11/30/03 Direct: \$ 907,779

Dates and costs of current year: 12/01/00 - 11/30/01 Direct: \$ 170,633

Specific aims of project: The major goal of this project is to generate and characterize HPV-16 pseudovirion containing a therapeutic DNA vaccine and compare their therapeutic effects in a murine E7-expressing tumor models.

Principal Investigator: T.-C. Wu

Source and identifying No.: Genencor International, Inc.

Title: Intracellular Targeting Strategies to Enhance DNA Vaccine Potency

Role on project: Principal Investigator.

Effort-1%

Dates and costs of entire project: 01/01/02 - 12/31/03 Direct: \$ 632,000

Dates and costs of current year: 01/01/02 - 12/31/02 Direct: \$ 315,188 Specific aims of project: The major goal of this sponsored research is to identify the best intracellular targeting strategy to enhance DNA vaccine potency.

Program Director: T.-C. Wu

Source and identifying No.: NIH/NIAID 1PO1AI48203

Title: Human immune responses for HPV vaccines

Role on project: Principal Investigator of the program and project 2.

Effort-25%

Dates and costs of entire project: 07/01/00 - 06/30/04 Direct: \$ 2,592,939

Dates and costs of current year: 07/01/01 - 06/30/02 Direct: \$ 487,774

Specific aims of project: The major goal of this project is to develop and utilize assays to measure humoral and cell-mediated immune responses in patients vaccinated with HPV vaccines.

Program Director: Elizabeth M. Jaffee

Source and identifying No.: NCI/NCDDG 5 U19CA72108

Title: HER-2/neu-specific pseudovirion cancer vaccines

Role on project: Principal Investigator of project 3.

Effort-10%

Dates and costs of entire project: 07/01/00-06/30/04 Direct: \$ 543,331

Dates and costs of current year: 07/01/01 - 06/30/02 Direct: \$129,652

Specific aims of project: The major goal of this project is to generate an HPV-16 {pCMV HER-

2/neu} pseudovirion as a therapeutic cancer vaccine for HER-2/neu-expressing breast cancers.

Principal Investigator: T.-C. Wu

Source and identifying No.: NCI/RAID Program (NSC#723254)

Title: Production of DNA Vaccine Encoding Chimeric E7/HSP70 for the Treatment of HPV-

Associated Head and Neck Squamous Cell Carcinoma.

Role on project: Principal Investigator of the program

Effort-N/A

Dates and costs of entire project: \$50,000 for preclinical test and expense for GMP grade reagent Dates and costs of current year: \$50,000 for preclinical test and expense for GMP grade reagent Specific aims of project: The major goal of this project is to generate and characterize a clinical GMP grade pNGVL4a-Sig/E7(detox)/HSP70 DNA vaccine for the Phase I trial on patients with HPV-associated advanced head and neck squamous cell carcinoma.

Principal Investigator: T.-C. Wu

Source and identifying No.: NCI/RAID Program (NSC#727107) Title: Production of DNA Vaccine Encoding Calreticulin (CRT) Linked to HPV-16 E7 for the Treatment of HPV-Associated Advanced Cervical Cancer. Role on project: Principal Investigator. Effort-N/A Dates and costs of entire project: N/A Dates and costs of current year: N/A Specific aims of project: The major goal of this project is to generate and characterize a clinical GMP grade pNGVL4a-CRT/E7(detox) DNA vaccine for the Phase I trial on patients with HPV-associated advanced cervical cancers.

# Program Director: Robert J. Kurman

Source and identifying No.: Department of Defense

Title: Development of antigen-specific cancer vaccines for the control of ovarian cancer Role on project: Principal Investigator of project 3.

Effort 100/

Effort-10%

Dates and costs of entire project: 07/01/02 - 06/30/05 Direct: \$ 489,942

Dates and costs of current year: 07/01/02 - 06/30/03 Direct: \$ 163,314

Specific aims of project: The major goal of this proposal is to generate an innovative antigenspecific nucleic acid vaccine using intercellular spreading strategy to control ovarian cancers.

# **EDUCATIONAL ACTIVITIES**

## Teaching:

Classroom Instruction:

- 1) Unit Director (Gyn/Breast/Prostate) of Pathobiology and Disease Mechanisms Course, 2002, 2003, 2004, 2005 (JHU, School of Medicine)
- 2) Lecture in the Second Year Pathology Course for second year medical students on "Pathology of the cervix". 2002, 2007, 2008, 2009, 2010, 2011 (JHU, School of Medicine).
- 3) Lecture in the Second Year Pathology Course for second year medical students on "Pathology of the vulva and vagina". 2002, 2007, 2008, 2009, 2010, 2011 (JHU, School of Medicine).
- 4) Coordinate and teach the Gynecology Pathology section for medical students in the Second Year Pathology Laboratory. 1998-2005 (JHU, School of Medicine).
- 5) Teach virology and bacteriology for medical students in the Second Year Pathology Laboratory. 1999-2007 (JHU, School of Medicine).
- 6) Lecture in Pathobiology Course for graduate students on "Preclinical model for vaccine development". 2001-2016 (JHU, School of Medicine).
- 7) Lecture in the Immunology Graduate Program Journal Club Series for graduate students on "New strategies for vaccine development". 2001- 2016 (JHU, School of Medicine).
- 8) Lecture in Graduate Immunology for graduate students on "Tumor immunology". 2001-2016 (JHU, School of Hygiene and Public Health).
- 9) Lecture in "Principle of Virology" for graduate students on "Carcinogenesis and human papillomavirus". 2001 (JHU, School of Hygiene and Public Health).
- 10) Lecture in "Advanced Virology" for graduate students on "Human papillomavirus and Oncogenesis" 2002, 2003 (JHU, School of Hygiene and Public Health).
- 11) Lecture in "Viral Oncology" for graduate students on "Human papillomavirus and Oncogenesis" 2003, 2004, 2005, 2006, 2007, 2008, 2009, 2010, 2011, 2012, 2013, 2014 (JHU, School of Medicine).
- 12) Lecture in "Biologic Basis of Vaccine Development" for graduate students on "Cancer Vaccines" 2003 (JHU, School of Hygiene and Public Health).

Clinical Instruction:

- 1) Teaching Gynecology and Pathology residents at Gynecology teaching conferences.
- 2) Teaching Gynecology and Pathology residents to use the multiheaded microscope.
- Teaching in the Emil Novak Memorial Course on "HPV vaccine development". 2000 (5th Richard W. TeLinde Lecture).

Other Instruction:

Lecture in *A Woman's Journey* series on "Cancer Vaccines", 2000 (a community education series sponsored by the Johns Hopkins Medical Institutions).

# Mentoring (pre and post-doctoral):

Undergraduate Students:

- Edwin Y. Chang (1996-1998; Hopkins undergraduate student; he became a medical student at the University of Michigan, School of Medicine)
- Stephen Brian Chiang (1996; Hopkins undergraduate student; He became a medical student at the University of Illinois, School of Medicine)
- Sunny Young (1996; Hopkins undergraduate student; won the 1996 Provost's Undergraduate Research Award; He became a dental student at UCLA)
- Howard Jen (1998, 1999 summer; Hopkins undergraduate student; He became a medical student at University of Maryland School of Medicine)
- Morris Ling (1999-2000; Hopkins undergraduate student; won the 2000 Provost's Undergraduate Research Award; He became a medical student at University of Maryland School of Medicine)
- Thu Pham (1999, 2000 summer; Hopkins undergraduate student; won the 2000 Howard Hughes Undergraduate Research Award; She became a medical student at the University of Pennsylvania School of Medicine)
- Leigh Slater (1999-2001, Hopkins undergraduate student; She became a medical student at Emory University School of Medicine)
- Amit N. Vora (2001 spring; Hopkins undergraduate student; recipient of the Woodrow Wilson Undergraduate Research Fellowship; He became a medical student at Johns Hopkins University School of Medicine)
- Jeremy Juang (2001; Hopkins undergraduate student; recipient of the 2001 Provost's Undergraduate Research Award; currently a M.D., Ph.D. student at Stanford University)
- Michelle Moniz (2001-2006; Undergraduate student at Hopkins; recipient of the Woodrow Wilson Undergraduate Research Fellowship; She became a medical student at Washington University School of Medicine)
- Elizabeth Dzeng (2002 summers; Stanford undergraduate; She became a medical student at Johns Hopkins University School of Medicine)
- Marissa Morales (2006 summer; College of Notre Dame undergraduate; She became a graduate student at the California Institute of Technology)
- Barbara Ma (2006-2011; undergraduate and graduate student at Hopkins; She became a medical student at New York Medical College)
- Shaw-Wei David Tsen (2006-2009; undergraduate student at Hopkins; He became a M.D.-PhD student at University of Washington, St. Louis)
- Yijie (Angela) Xu (2009-2010; undergraduate student at Hopkins)
- Ellen Margaret Axenfeld (2011 summer, undergraduate student at University of Miami)

Janson Trieu (2011-2013 undergraduate student at Hopkins; He attends medical school at University of Arizona)

Alice Tao (2013, summer undergraduate student at Hopkins) Anita Patel (2013, summer undergraduate student at Hopkins) Ariel Yeh (2013, undergraduate student at Hopkins; She is a PhD student at Harvard) Emily Robitschek (2014-2015, undergraduate student at Colorado State University) Olivia Leung (2014, undergraduate student at Johns Hopkins University) Joby Tsai (2015, undergraduate student at Johns Hopkins University) Jovana Cavillo (2016, undergraduate student at Williams College) John Lin (2016, undergraduate student at Johns Hopkins University) Sizhe (Jem) Liu (2016, undergraduate student at Johns Hopkins University) Ray Kung (2017-present, undergraduate student at Johns Hopkins University) Turner Schwartz (2018, undergraduate student at Johns Hopkins University) Robert Charig (2019, summer undergraduate student from University of Exeter)

Medical Students:

Masahide Kanayama, M.D. (1992, Medical Student from University of Wisconsin, School of Medicine; currently, an Assistant Professor in the Department of Obstetrics and Gynecology at the Mount Sinai Hospital in New York) Anthony L. Lee, M.D. (1992; Medical Student at Hopkins; currently, a fifth year resident in

Anthony L. Lee, M.D. (1992; Medical Student at Hopkins; currently, a fifth year resident in the Department of Surgery at the University of Michigan Medical Center)

Maciej Lesniak, M.D. (1995; Medical Student at Hopkins; currently, a fifth year resident in the Department of Neurosurgery at the Johns Hopkins Hospital)

Stefanie L. Stevenson, M.D. (1997, Medical student at Hopkins; currently, a third year resident in the Department of Medicine at the University of Cincinnati Medical Center) Nazanin Hanjani (1999 summer; currently, former Medical student at Hopkins) Todd T. Tomson (2004 summer; former Medical student at Hopkins) Elizabeth Scotney (2009, summer, medical student at Imperial College School of Medicine, UK) Kimberley Doolan (2009, summer, medical student at Imperial College School of Medicine, UK) Elena Roosinovich (2009, summer, medical student at Imperial College School of Medicine, UK) Anjui Wu (2009, summer, medical student at National Taiwan University) Jeffrey Chang (2009, summer, medical student at National Taiwan University) Cheng-Che (Sam) Chou (2009, summer, medical student at Chang Gung University) Tsung Ju (Leon) Lee (2009, summer, medical student at Chang Gung University) Joseph Wan (2009, summer, medical student at Chang Gung University) Wei-Hung Weng (2009, summer, medical student at Chang Gung University) Bin-Chi (Bill) Wu (2009, summer, medical student at Fu-Ren University School of Medicine) Clarence Lin (2009, summer, medical student at Howard University) Ray Mao (2010, winter, medical student at National Chang Kung University) Candice Chang (2011, summer, medical student at Chang Gung University) Yu-Han (Grace) Hsueh (2011, summer, medical student at National Chang Kung University) Shu-yu Liu (2011, summer, medical student at National Chang Kung University) Wen Han (Hans) Hsieh (2011, summer, medical student at National Taiwan University) Philip Chiang (2013, summer, medical student at National Taiwan University) Andrew Yang (2013, summer, medical student at National Taiwan University) Edward Chiu (2014-2015, medical student at National Taiwan University)

Ellen Tseng (2014, summer, medical student at National Taiwan University) Amy Huang (2014, summer, medical student at National Taiwan University) Ching-yu Frank Lu (2015, summer, medical student at National Yang-Ming University) Jou-Chien Ruth Liao (2015, summer, medical student at National Yang-Ming University) Hawk Lo (2015, medical student at China Medical University, Taiwan) Shih-Chieh (Jay) Yen (2016, summer, medical student at National Taiwan University) Chun-Lin (Chris) Kuo (2016, summer, medical student at National Defense Medical Center) Chung Wen (Chinese) Wu (2016, summer, medical student at National Defense Medical Center) Yi Ting Huang (2017, summer, medical student at National Taiwan University) Chen-Yu (Alexandra) Pan (2017, summer, medical student at National Taiwan University) Yen-Chun (Galen) Wang (2017, summer, medical student at National Defense Medical Center) Chia-Chuan (Allen) Liu (2017, summer, medical student at National Defense Medical Center) Claire Huang (2017, summer, medical student at National Yang Ming University) Yu-Sin (Jennifer) Ting (2017, summer, medical student at National Yang Ming University) Po-Yi (Alex) Wu (2017, summer, medical student at National Yang Ming University) Po-Tsen (Roger) Kiu (2017, summer, medical student at National Yang Ming University) Yi-Hsuan (Sophia) Huang (2017, summer, medical student at National Yang Ming University) Yu-Ching (Tiffany) Wang (2018, summer, medical student at National Yang Ming University) Li-Chi (Isaac) Chen (2018, summer, medical student at National Yang Ming University) Yu-Chieh (Sophia) Shiao (2018, summer, medical student at National Yang Ming University) Jen Wei (Jewel) Hong (2018, summer, medical student at National Yang Ming University) Yu-Hsin (David) Liang (2018, summer, medical student at National Taiwan University) Andrew Lee (2019, summer, medical student at National Taiwan University) Jia-Han Lin (2019, summer, medical student at National Yang-Ming University) Tsun-Hsiao Wang (2019, summer, medical student at National Yang-Ming University) Chien-Ping Liu (2019, summer, medical student at Taipei Medical University) Sheng-Ni Chen (2019, summer, medical student at Taipei Medical University)

## Graduate Students:

- Ken-Yu Lin, (1997-2005, B.C.M.B. Graduate Program; recipient of the 2000 Howard Hughes Graduate Student Research Award; He completed a Ph.D. thesis on the mechanisms of tumor immune evasion in Dr. Wu's lab, He is currently a resident at Yale University affiliated hospital)
- Bruce Huang (Pathobiology Graduate Program, He completed a Ph.D. thesis on the mechanisms of tumor metastasis in Dr. Wu's lab and is currently a fellow in National Cancer Institute.)
- Jesse Rowley (Immunology Graduate Program, He completed a Ph.D. thesis on the T cell biology in Dr. Wu's lab and is currently a research fellow at the University of Utah).

Jian-Tai Qiu (Molecular Microbiology and Immunology Graduate Program, rotating student)

Cecily Alcock (Immunology Graduate Program, rotating student)

Sasha Klevytska (Pathobiology Graduate Program, rotating student)

Yan Zheng (Immunology Graduate Program, rotating student)

Stina Fengmark (Pathobiology Graduate Program, rotating student)

Yen-Chun Liu (Pathobiology Graduate Program, rotating student)

Andrew (Hung-Chih) Yang (Immunology Graduate Program, rotating student)

Chuan-Hsiang Huang (Immunology Graduate Program, rotating student)

Tong Zhang (Immunology Graduate Program, graduated December 2010)

Huang Yu Yang (Immunology Graduate Program, rotating student).

Pei-Yang (Phillip) Hsu (Masters student, Johns Hopkins School of Public Health)

Chiaki Nakata (Masters student, Johns Hopkins School of Public Health)

Waipan Chan (2008, Immunology Graduate Program, rotating student)

Christopher Nirschl (2010, Immunology Graduate Program, rotating student)

Chao-Yi Wu (Pathobiology Graduate Program, completed her Ph.D. thesis in Dr. Wu's lab in 2013)

Yi-Hsin (Sophie) Lin (2012-2017, Pathobiology Graduate Program, Thesis student)

Chih-Ping Mao (2006-2018; Johns Hopkins undergraduate, became a Johns Hopkins M.D.-PhD. student, won Young Investigator Award)

Brandon Lam (2016, Immnology Graduate Program, Thesis student)

Talia Henkle (2017, Immunology Graduate Program, Thesis student)

Alana MacDonald (2018, Immunology Graduate Program, Thesis student)

Ying-Yu Chen (2019, Immunology Graduate Program, rotating student)

Pakhi Birla (2019, Immunology Graduate Program, rotating student)

## Residents:

- Matthew L. Kashima, M.D. (1998 January-1998 July; currently, an Assistant Professor in the Department of Otolaryngology Head and Neck Surgery of the Johns Hopkins Bayview Medical Center)
- Sara I. Pai, M.D., Ph.D. (June 2004-July 2007; currently, an Associate Professor in the Department of Otolaryngology Head and Neck Surgery of the Massachusetts General Hospital)

# Post-Doctoral Fellows:

- Teh-Ying Chou, M.D., Ph.D. (1995-1996; Post-doctoral Fellow; currently a professor in the Department of Pathology at the Veterans General Hospital in Taiwan)
- C.-C. Huang, M.D. (1997-1998; post-doctoral fellow; currently, an attending pathologist and Professor in Chang-Gung Memorial Hospital in Taiwan)
- Hongxiu Ji, M.D., Ph.D. (1996-1998; post-doctoral fellow; currently, an Assistant Professor in the Department of Pathology at the Johns Hopkins Hospital)
- Chien-Hung Chen, M.D. (1998-1999; post-doctoral fellow; currently, an Associate Professor in the Department of Medicine at National Taiwan University Hospital)
- Mingxin Che, M.D., Ph.D. (1998-1999; postdoctoral fellow; currently, an Assistant Professor at Wayne State Hospital, Detroit)
- Chien-Fu Hung, Ph.D. (1998-2000; postdoctoral fellow; currently, an Associate Professor in the Division of Gynecologic Pathology of the Johns Hopkins Hospital)
- Wen-Fang Cheng, M.D. (1999-2001; postdoctoral fellow; currently, a Professor in the Department of Obstetrics and Gynecology at the National Taiwan University Hospital)
- Keng-Fu Hsu, M.D. (1999-2000; postdoctoral fellow; currently, an Assistant Professor in the Department of Obstetrics and Gynecology of the National Cheng Kung University Hospital)
- Chai Chee-Yin, M.D., Ph.D. (1999-2000; postdoctoral fellow; currently, Chairman of the Department of Pathology at the Kaohsiung Medical University, Taiwan)
- Chia-Ling Hsieh, M.D. (2000-2002, postdoctoral fellow; currently, an attending physician at the Chang-Gung Memorial Hospital in Taiwan)

- Jeong Won Kim, M.D., Ph.D. (2001-2002, postdoctoral fellow; currently, an Assistant Professor in the Department of Internal Medicine at the Dankook University Medical Center in South Korea)
- Cheng-Tao Lin, M.D. (2001-2003, postdoctoral fellow, currently, an Associate Professor in Department of Obstetrics and Gynecology of the Chang-Gung Memorial Hospital in Taiwan)
- Tae Woo Kim, Ph.D. (2001-2003, postdoctoral fellow, Currently, an Associate Professor at the Korea University in South Korea)
- Dae Jin Kim, M.D., Ph.D. (2005-2008, postdoctoral fellow, Department of Pathology of the Johns Hopkins Hospital. He is currently an Assistant Professor in the Chung-Ang University, South Korea.)
- Dan Lu, Ph.D. (2006-2007, postdoctoral fellow, Department of Pathology of the Johns Hopkins Hospital.)
- Chih-Long Chang, M.D., Ph.D. (2006-2007, postdoctoral fellow, Department of Pathology of the Johns Hopkins Hospital. He is currently an Assistant Professor at Mackay Memorial Hospital, Taipei, Taiwan.)
- Chi-Mu Chuang, M.D. (2006-2007, postdoctoral fellow, Department of Pathology of the Johns Hopkins Hospital. He is currently an Assistant Professor at National Yang-Ming University, Taipei, Taiwan)
- Chih-Wen Tseng, M.D. (2006-2008, postdoctoral fellow, Department of Pathology of the Johns Hopkins Hospital. He is currently an Assistant Professor at Chang Gung University College of Medicine, Taiwan)
- Tae Heung Kang, Ph.D. (2008-2009, postdoctoral fellow, Department of Pathology of the Johns Hopkins Hospital)
- Yuqian Zhang, Ph.D. (2008-2009, postdoctoral fellow, Department of Pathology of the Johns Hopkins Hospital)
- Weiting Hsueh, Ph.D. (2009-2010, postdoctoral fellow, Department of Pathology of the Johns Hopkins Hospital)
- Qi Zeng, M.D. (2008-2010, postdoctoral fellow, Department of Pathology of the Johns Hopkins Hospital)
- Wen-Chung Chen, M.D. (2009-2010, postdoctoral fellow, Department of Pathology of the Johns Hopkins Hospital)
- An-Jen Chiang, M.D. (2010-2011, postdoctoral fellow, Department of Pathology of the Johns Hopkins Hospital)
- Bianca Gomez, Ph.D. (2010-2011, postdoctoral fellow, Department of Pathology of the Johns Hopkins Hospital)
- Sharon Tsai, M.D. (2010-2012, postdoctoral fellow, Department of Pathology of the Johns Hopkins Hospital)
- Sung Yong Lee, Ph.D. (2011-2012, postdoctoral fellow, Department of Pathology of the Johns Hopkins Hospital)
- Lihua Yang, M.D. (2011-2012, postdoctoral fellow, Department of Pathology of the Johns Hopkins Hospital)
- Ruey-Shyang Soong (2012-2014, postdoctoral fellow, Department of Pathology of the Johns Hopkins Hospital)
- Yun-Yan Sun, M.D. (2012-2014, postdoctoral fellow, Department of Pathology of the Johns Hopkins Hospital)

- Liwen Song, M.D. (2013-2014, postdoctoral fellow, Department of Pathology of the Johns Hopkins Hospital)
- Sung-Jong Lee, M.D. (2013-present, postdoctoral fellow, Department of Pathology of the Johns Hopkins Hospital)
- Jay Yang, M.D. (2013-2015, postdoctoral fellow, Department of Pathology of the Johns Hopkins Hospital)
- Jian Miao, M.D. (2014-2015, postdoctoral fellow, Department of Pathology of the Johns Hopkins Hospital)
- Xuquen Xu, M.D. (2014-2015, postdoctoral fellow, Department of Pathology of the Johns Hopkins Hospital)
- Yu-Min Chuang, M.D., PhD (2014-present, postdoctoral fellow, Department of Pathology of the Johns Hopkins Hospital)
- Liping Han, M.D., PhD (2014-2015, postdoctoral fellow, Department of Pathology of the Johns Hopkins Hospital)
- Jin Qiu, M.D., Ph.D (2014-2016, postdoctoral fellow, Department of Pathology of the Johns Hopkins Hospital)
- Yu-Pin Su D.V.M. (2015-present, postdoctoral fellow, Department of Pathology of the Johns Hopkins Hospital)
- Ying Ma, M.D., Ph.D (2015-2016, postdoctoral fellow, Department of Pathology of the Johns Hopkins Hospital)
- Feng Woei Tsay M.D. (2015-2016, postdoctoral fellow, Department of Pathology of the Johns Hopkins Hospital)
- Zuequn Xu Ph.D (2015-present, postdoctoral fellow, Department of Pathology of the Johns Hopkins Hospital)
- Pei-Ming Yang (2015-2016, postdoctoral fellow, Department of Pathology of the Johns Hopkins Hospital)
- Ssu-Hsueh Tseng (2016-present, postdoctoral fellow, Department of Pathology of the Johns Hopkins Hospital)
- Daewoo Lee (2016-2017, postdoctoral fellow, Department of Pathology of the Johns Hopkins Hospital)
- Deyin Xing (2016-present, Department of Pathology of the Johns Hopkins Hospital. He is currently an Assistant Professor in the Department of Pathology at the Johns Hopkins Hospital)
- Sung Taek Park (2018-2019, postdoctoral fellow Department of Pathology of the Johns Hopkins Hospital)
- Yu-Hsin Wang (2019-present, postdoctoral fellow Department of Pathology of the Johns Hopkins Hospital)
- JinHwi Kim (2019-present, postdoctoral fellow Department of Pathology of the Johns Hopkins Hospital)
- Wei-Yu Chi (2019-present, postdoctoral fellow Department of Pathology of the Johns Hopkins Hospital)

Graduate Student Thesis Committees:

- Yue-Ming Huang (Molecular Microbiology and Immunology Graduate Program, M.S. Degree, 1999, Thesis Advisory Committee)
- Shiwen Peng (Immunology Program at the University of Queensland, Australia, Ph.D. Degree, 1999, outside reviewer)

- Jonathan Heller (Biochemistry Graduate Program, Ph.D. Degree, 2000, Thesis Advisory Committee)
- Jie Yang (Molecular Pharmacology Graduate Program, Ph.D. Degree, 2001, oral examiner)
- Haili Zhang (Immunology Graduate Program, Ph.D. Degree, 2001, oral examiner)
- Gladys Tan (Immunology Graduate Program, Ph.D. Degree, 2001, oral examiner)
- Rebecca Garten (Molecular Microbiology and Immunology Graduate Program, Ph.D. Degree, 2001, oral examiner)
- Jian-Tai Qiu (Molecular Microbiology and Immunology Graduate Program, Ph.D. Degree, 2001, Thesis Advisory Committee)
- Tian-Hong Wang (Immunology Graduate Program, Ph.D. Degree, 2001, Thesis Advisory Committee)
- Lan Lin (Pharmacology Graduate Program, Ph.D. Degree, 2001, Thesis Advisory Committee)
- George R. Gunn, III (Immunology Program at the University of Pennsylvania, Ph.D. Degree, 2001, outside reviewer)
- Kai Wei Lin (Immunology program, Ph.D. Degree, 2002, oral examiner)
- Loise Francisco (Immunology Program, Ph.D. Degree, 2002, oral examiner)
- Kalpana Devaraj (Molecular Microbiology and Immunology Program, M.H.S. Degree, 2002, Thesis Advisory Committee)
- Ruijiang Song (Biomedical Engineering Program, Ph.D. Degree, 2002, Chair of Thesis Advisory Committee)
- Patti Gravitt (Epidemiology Graduate Program, Ph.D. Degree, 2002, Thesis Advisory Committee)
- Phuong Thi Nguyen Sarkis (Molecular Microbiology and Immunology Graduate Program, Ph.D. Degree, 2003, oral examiner)
- Kimberly Dowd (Immunology program, Ph.D. Degree, 2004, oral examiner)
- James Thompson (Microbiology and Immunology Graduate Program of the University of Maryland at Baltimore County, Ph.D. Degree, 2006, Thesis Advisory Committee, 2005)
- Nick Souders (Microbiology and Immunology Graduate Program of the University of Pennsylvania, PhD. Degree, 2006, Thesis Advisory Committee)
- Rhonda Kines (Immunology Graduate Program of the Roswell Park Cancer Institute, Ph.D. Degree, 2005, Thesis Advisory Committee)
- Zhaohui Ye (Immunology program, Ph.D. Degree, 2006, oral examiner)
- Lukas W. Pfannenstiel (Immunology program, Ph.D. Degree, 2007, Thesis Advisory Committee).
- Vivian Weiss (Immunology program, M.D., Ph.D. Degree, 2007, Thesis Advisory Committee).
- Kelly Barrios-Marrugo (Immunology Program, Ph.D., 2012, Thesis Advisory Committee)
- James Gordy (Immunology and Infectious disease Program, Ph.D., 2016, Thesis Advisory Committee)
- Rosie Jiang (Pathobiology Program, Ph.D. Degree, 2017, Thesis Advisory Committee)

## Training grant participation:

- 1) Immunology Graduate Program Training Grant, 2001-present, trainer
- 2) Pathobiology Graduate Program Training Grant, 2000-present, trainer
- 3) NIH T32 STD Training Grant, 2001-present, member of the executive committee for laboratory research

#### **Editorial Activities:** Editorial Board

- 2000-2016 member, Diagnostic Molecular Pathology
- 2004-2016 member, American Journal of Pathology
- 2004-present member, International Journal of Gynecological Pathology
- 2005-present Associate Editor, Journal of Biomedical Science
- 2008-2010 member, Gene Therapy
- 2009-present member, Cancer Research
- 2010-present Associate Editor, Cell and Bioscience

#### Journal peer review activities:

- 1. Journal of Biomedical Science
- 2. The Laryngoscope Journal
- 3. International Journal of Gynecological Pathology
- 4. Journal of the Society for Gynecologic Investigation
- 5. Cancer Research
- 6. Clinical Cancer Research
- 7. American Journal of Pathology
- 8. Expert Opinion on Investigational Drugs
- 9. Journal of Virology
- 10. Modern Pathology
- 11. The Lancet
- 12. Cancer Epidemiology, Biomarkers and Prevention
- 13. Human Pathology
- 14. Molecular Pathology
- 15. Journal of Immunology
- 16. Cancer Immunology and Immunotherapy
- 17. Virology
- 18. Human Gene Therapy
- 19. FASEB
- 20. Molecular Therapy
- 21. Gene Therapy
- 22. Blood
- 23. Journal of the National Cancer Institute
- 24. Nature Medicine
- 25. Immunity
- 26. Proc. Natl. Acad. Sci.
- 27. Journal of Clinical Investigation
- 28. Nature Biotechnology
- 29. Cancer Cell
- 30. Nature Reviews Cancer

## **CLINICAL ACTIVITIES**

## **Certification:**

1992 - present	State of Maryland License
1992	American Board of Pathology,

#### Certification in Anatomic Pathology

#### Service Responsibilities:

- a) Regularly sign out diagnostic GYN surgical pathology specimens.
- b) Participate in the development of new molecular diagnostic tests.
- c) Participate in the development of new molecular immunological assays.

## **ORGANIZATION ACTIVITIES**

#### Institutional Administrative Appointments:

#### July 1996-present

Member of the CAC Clinical Research and Development Subcommittee

#### February 1997

Member of the Ad hoc Review Committee for Promotion to Assistant Professor

#### May 1999, October 2002

Member of the Ad hoc Review Committee for Promotion to Associate Professor

#### October 2003, 2004

Member of the Ad hoc Review Committee for Promotion to Professor

#### March 1998-present

Member of the Subcommittee for the recruitment of M.D., Ph.D. residents

#### July 1997-present

Member of the Research Committee of JHU Women's Health Initiatives

#### February 2002-January 2006

Director of the Vaccine Immunology Basic Research Center

#### February 2002-present

Director of the Cervical Cancer Steering Committee

#### August 2002-present

Member of the Research Council of the Sidney Kimmel Comprehensive Cancer Center at Hopkins

## February 2006-present

Member of the Subcommittee for Professor Promotion Committee

## **Professional Societies:**

American Society for Clinical Investigation (ASCI)

American Association of Immunologists Sigma Xi Society of Chinese Bioscientists in America (SCBA) Binford-Dammin Infectious Disease Society of International Academy of Pathology American Association for Cancer Research International Society of Gynecological Pathologists American Society of Gene Therapy International Papillomavirus Society Association of American Physicians (AAP) Academician, Academia Sinica Fellow, American Society for Microbiology

# **Conference Organizer, Section Chair:**

- 1) Organizer for the Fourth Annual Joint Scientific Symposium of NIH/FDA CAA and Washington DC Chapter of SCBA, August, 1997, Bethesda, Washington D.C.
- 2) Organizer for the Fifth Annual Joint Scientific Symposium of NIH/FDA CAA and Washington DC Chapter of SCBA, August, 1998, Bethesda, Washington D.C.
- 3) Moderator and member of the Program Committee for the Companion Meeting/Scientific Symposium of the Binford-Dammin Society of Infectious Disease Pathologists, International Academy of Pathology 2001, Atlanta, Georgia.
- 4) Chair for Immunology Section of the 19<sup>th</sup> International Papillomavirus Conference 2001, Florianopolis, Brazil.
- 5) Moderator and member of the Program Committee for the Companion Meeting/Scientific Symposium of the Binford-Dammin Society of Infectious Disease Pathologists, International Academy of Pathology 2002, Chicago, Illinois
- 6) Chair for AAI tumor immunology program "Anti-tumor Effector Cells and Regulation of Tumor Immunity" 2002, New Orleans, Louisiana
- 7) Chair and member of the Scientific Program Committee for Prophylactic Vaccines section of the 20<sup>th</sup> International Papillomavirus Conference 2002, Paris, France.
- 8) Chair and member of the Program Committee for the Companion Meeting/Scientific Symposium of the Binford-Dammin Society of Infectious Disease Pathologists, International Academy of Pathology 2003, Washington D.C.
- 9) Moderator and member of the Program Committee for the International Conference on Malignancies in AIDS and Other malignancies 2004, 2005, 2006, 2008, 2009, 2010, 2011, 2013 Washington DC.
- 10) Chair and member of the Scientific Program Committee for Immunology section of the 22<sup>th</sup> International Papillomavirus Conference 2005, Vancouver, Canada.
- 11) Chair for Vaccination against Cervical Cancer Session, AACR Frontiers in Cancer Prevention Research, 2006, Baltimore, MD
- 12) Members of the Planning Committee for the 13<sup>th</sup> SPORE Investigators' Workshop, 2005, Washington DC
- 13) Chair for Optimization of DNA vaccines by gene gun at the DNA Vaccine by Gene Gun Meeting at Magdalen College, 2006, Oxford England.
- 14) Chair for Vaccine and Antiviral Therapy Workshop of the 11<sup>th</sup> SCBA meeting, 2006, San Francisco, CA

- 15) Chair for the Break-Out session for the Head and Neck Cancer SPORE and Cervical Cancer SPORE program of the 2007 Annual SPORE meeting, Baltimore, MD
- 16) Chair for the Viral Oncology Workshop of the 2007 Annual SPORE meeting, Baltimore, MD
- 17) Chair and member of the Scientific Program Committee for Immunology section of the 24<sup>th</sup> International Papillomavirus Conference 2007, Beijing, China.
- 18) Member of the Scientific Program Committee for 3rd International Conference on Cancer Vaccines/Adjuvants/Delivery for the Next Decade, 2009, Dublin, Ireland.
- 19) Chair of Tumor Virology and Immunology session, BIT's 1<sup>st</sup> World Congress of Virus and Infections 2010 (WCVI-2010), Busan, South Korea
- 20) Chair of Molecular Pathology session, 7<sup>th</sup> Asia Pacific IAP Congress (May 20-24, 2011), Taipei, Taiwan
- 21) Chair of Antibodies for Ovarian and Lung Cancer session, BIT's 3<sup>rd</sup> Annual International Congress of Antibodies 2011, Beijing, China
- 22) Organizer and Chair of Tumor Immunology Session, 2011 SCBA annual meeting, Guangzhou, China
- 23) Member of the Scientific Program Committee for Immunology section of the 27<sup>th</sup> International Papillomavirus Conference 2011, Berlin, Germany.
- 24) Member of the Scientific Program Committee and Chair for Immunology section of the 28<sup>th</sup> International Papillomavirus Conference 2012, San Juan, Puerto Rico
- 25) Organizer and Chair of Immunology Session, 2013 SCBA annual meeting, Xian, China
- 26) Organizer and Chair of Translational Research Session, 2015 SCBA annual meeting, Taipei, R.O.C

# Advisory Committee, Review Group:

- 1. Ad hoc member of NIH Experimental Immunology (EI) Study Section, 2000, 2001
- 2. Grant review for National Institute of Health, Taiwan, R.O.C., 2000
- 3. Grant review for National Science Foundation, USA, 2000
- 4. Grant review for South Carolina Research Initiative Grants, 2000
- 5. Grant review for Department of Veterans Affairs, 2000
- 6. Grant review for California Breast Cancer Research Program, 2000
- 7. Grant review for Dutch Cancer Society, 2000, 2001
- 8. Grant review for Austrian Science Fund, 2001
- 9. Grant review for the Ireland Health Research Board, 2001
- 10. Grant review for National Science Council, Taiwan, R.O.C., 2000, 2002
- 11. Grant review for American Institute of Biological Sciences / Flight Attendant Medical Research Institute, 2001, 2005 and 2006
- 12. Grant review for the Rapid Access to Preventive Investigational Development (RAPID) program, 2001, 2002
- 13. Grant review for the Research Grants Council of Hong Kong, 2002, 2008, 2009, 2011
- Grant review for the Department of Defense, United States Government, 2002, 2003, 2004 2005, 2006 and 2007
- 15. Member of the site visit committee to the Paterson Institute at Manchester, England, Cancer Research Campaign, 2002
- 16. Member of the site visit committee to the National Health Research Institutes of Taiwan for Center Development Grant, 2002, 2004
- 17. Member of NIH Experimental Immunology (EI) Study Section, 2002, 2003, 2004

- 18. Member of the site visit committee to program project (2PO1 CA078673-05) at Duke University, Durham, 2002, 2004.
- Member of the site visit committee to Laboratory of Cellular Oncology (Drs. John Schiller and Douglas Lowy) at the National Cancer Institutes of the National Institutes of Health, Bethesda, Maryland, 2003
- 20. Grant review for head and neck cancer SPORE application, NCI, 2004.
- 21. Grant review for ovarian cancer SPORE application, NCI, 2004.
- 22. Grant review for the program project (2 P01 CA033049-22) Sloan-Kettering Institute for Cancer Research "Cellular Antibody Immunotherapy", 2004
- 23. Grant review for the program project (2P50 DC000203-20) N. Shore-Long Island Jew. Res. CRT "Studies of papillomas from the upper respiratory tract" 2004.
- 24. Member of the NCRR Scripps Research Institute of La Jolla, CA General Clinical Research Center Site Visit committee, CA, 2004.
- 25. Ad hoc member of the NIH Cancer Immunology and Immunotherapy (CII) Study Section, 2006, 2007
- 26. Member of the Cancer Immunopathology and Immunotherapy (CII) Study Section NCI/NIH (2008-2011)
- 27. Site Visit NIH CCR Site Visit (2010) Scientific Evaluation of the PI, Dr. Jeffrey. Schlom
- 28. Ad-hoc member of NCI Molecular Oncology P01 Review (2010)
- 29. Member of DOD Ovarian Cancer Study Section (2010, 2011, 2012, 2013)
- 30. National Research Program for Emergent Infectious Disease, National Science Council, Grant Review Committee, Taiwan (2008, 2009, 2011)
- 31. National Health Research Institutes Extramural Grant Scientific Review Committee, Taiwan, (2010-2016)
- 32. National Research Program for Biopharmaceuticals, National Science Council, Grant Review, Taiwan (2011)
- 33. Review for NIH Loan Repayment (2014-2016)
- 34. Member, Board of Basic Scientific Counselors, National Cancer Institute (2013-2018)

# Consultantships/Advisor:

- 1. Genecor, Scientific Advisory Board, 2004-2006
- 2. Cerus Corporation, Scientific Advisory Board, 2005-2007
- 3. Nventa Biopharmaceuticals Corporation, Scientific Advisory Board, 2007-2008
- 4. Science and Technology International® (STI), Scientific Advisory Board , 2007-2009
- 5. Member of External Advisory Committee of the Cell Stress and Biophysical Therapy Program at Roswell Park Cancer Institute (2006-2011).
- 6. Member, Scientific Advisory Board, Papivax Biotech Inc. (2013-2014)

# RECOGNITION

# Awards, honors:

National Taiwan University, College of Medicine9/75-6/82Book Award, 1975 through 1982 for being in top five percent of the class

1979 Dr. Shu Yeh Scholarship (best student in Pathology)

Johns Hopkins University, School of Hygiene & Public Health 1986-1988 The Hampil Fellowship (tuition and stipend support)	
1987 The Frederick B. Bang Award (for an outstanding research idea in the area of pathobiology)	
1989 The Delta Omega Honorary Society Alpha Chapter (in recognition of excellence in student research)	
International Academy of Pathology 1994 Binford-Dammin Award (from Binford-Dammin society of International Academy of Pathology)	
The Passano Foundation1996Passano Physician Scientist Award	
Society of Chinese Bioscientists in America DC Chapter2000Outstanding Service Award	
American Society for Clinical Investigation2002Elected member	
The Chinese American Medical Society2008Scientific Award	
The Association of American Physicians2012Elected member	
Academician of Academia Sinica2016Elected member	
International Association of Chinese Pathologists2017Oustanding Pathologist Award	
Harrington Discovery Institute 2019 Innovative Scholar	
The American Academcy of Microbiology2019Elected Fellowship	

# Invited Talks, Panels:

 1994 "Transcriptional activation of HPV by human cytomegalovirus (HCMV) and detection of HCMV immediate early transcripts in a subset of HPV containing condylomata." Invited speaker, University of Chicago, Pritzker Medical School, Illinois.

- 1994 "Development of vaccine and immunotherapeutic strategies for HPV related cervical carcinoma". Invited plenary speaker on "Modern developments in cancer therapeutics." American Association for Cancer Research, Academia Sinica, Taipei, Taiwan.
- 1996 "Application of intracellular sorting signals in the development of cancer vaccines." Invited speaker, Department of Biological Chemistry, The Johns Hopkins University, School of Medicine, Baltimore, Maryland.
- 1996 "Vaccinia vaccine vectors for cervical cancer." Invited speaker, Human Genetics Program, The Johns Hopkins University, School of Medicine, Baltimore, Maryland.
- 1996 "Antigen specific cancer immunotherapy for HPV-associated cervical cancers." Immunology Council, The Johns Hopkins University, Baltimore, Maryland.
- 1996 "Development of antigen specific cancer vaccines using intracellular sorting signals." Invited speaker, 15th International Papillomavirus Workshop, Brisbane, Australia.
- 1997 "Development of vaccines and immunotherapeutic strategies for HPV-related cervical Cancer." Chlamydia/STD Seminar Series. The Johns Hopkins Hospital, Baltimore, Maryland.
- 1997 "Novel strategy for antigen specific cancer immunotherapy." Invited speaker, Department of Molecular Microbiology and Immunology. The Johns Hopkins University, School of Hygiene and Public Health, Baltimore, Maryland.
- 1997 "Vaccine and immunotherapeutic strategies for HPV-associated neoplasms." Invited speaker, National Cancer Institute, National Institutes of Health, Bethesda, Maryland.
- 1997 "Antigen specific cancer immunotherapy." Invited speaker, Department of Microbiology and Immunology, Loyola University, Chicago
- 1997 "Development of vaccines and immunotherapeutic strategies for HPV-associated cervical cancers." Invited plenary speaker, 1st Annual Terry Fox and Chang-Gung Memorial Hospital International Cancer Symposium on Cervical Cancer, Taipei, Taiwan
- 1998 "Cervical cancer and HPV vaccines." Invited speaker, Department of Pathology, Medical College of Virginia, Richmond.
- 1998 "Antigen targeting to the MHC processing pathway." Invited plenary speaker, 1st Annual Meeting of The American Society of Gene Therapy, Seattle, Washington
- 1999 "Cancer immunotherapy for HPV-associated cervical cancers." Invited speaker, National Cancer Institute, National Institutes of Health, Baltimore, Maryland.
- 2000 "Development of preventive and therapeutic vaccines for HPV-associated cancers." Plenary speaker, American Association for Cancer Research, 91<sup>st</sup> Annual Meeting, San Francisco.
- 2000 "Development of vaccines and immunotherapeutic strategies for HPV-associated cervical cancers." Invited keynote speaker, The Joint Symposium of Oncology Research of Taiwan, Taipei, Taiwan.
- 2000 "Development of vaccines for HPV-associated cervical cancers." Invited speaker, Department of Immunology, H. Lee Moffitt Cancer Center, Tampa, Florida.
- 2001 "Preclinical model for cervical carcinogenesis." Invited plenary speaker, 1st International Conference on Cervical Cancer, Baltimore, Maryland.
- 2001 "Development of cervical cancer vaccines." Invited plenary speaker, the American Cancer Society's 43rd Annual Science Writers Seminar, Dana Point, California.
- 2001 "Novel strategies to enhance nucleic acid vaccine potency." Invited speaker, Ohio State University School of Medicine, Columbus, Ohio.
- 2001 "Preventive and therapeutic approaches toward HPV-associated neoplasia." Invited plenary speaker, HPV-2001 meeting, Taipei, Taiwan, R.O.C.

- 2001 "Development of vaccine and Immunotherapeutic strategies for HPV-associated cervical cancers." Invited speaker, 21<sup>st</sup> Annual Resident's Research Day, Lenox Hill Hospital, New York.
- 2001 "Vaccines and immunotherapeutic strategies for cancers." Invited speaker, Department of Molecular & Cellular Biophysics, Roswell Park Cancer Institute, Buffalo, NY.
- 2001 "Preclinical model for cervical cancer." Invited speaker, NIH/NCI Roundtable Discussion for Gynecological Cancer, Washington, DC.
- 2002 "Innovative DNA vaccines for HPV-associated malignancies." Invited speaker, NIH/NCI RAID Program, Frederick, MD.
- 2002 "Development of innovative DNA vaccines for the control of cancers." Invited plenary speaker, 1<sup>st</sup> Taiwan-America Biotech Conference & Exhibition, San Diego, CA.
- 2002 "Improving DNA vaccine potency through intracellular and intercellular Targeting strategies." Invited speaker, Hematopoeisis/Immunology Society, Department of Oncology, The Johns Hopkins University, Baltimore, MD.
- 2002 "Strategies to enhance DNA vaccine potency." Invited plenary speaker, 2002 Advances in Designing Cancer Vaccines, Boston, MA.
- 2002 "DNA vaccines for cancer." Invited speaker, The EORTC-AACR 2002 symposium on "Molecular Targets and Cancer Therapeutics", Frankfurt, Germany.
- 2002 "Development of innovative DNA vaccines for cervical cancer." Invited plenary speaker, 2<sup>nd</sup> International Conference on Cervical Cancer, MD Anderson, Houston, Texas.
- 2002 "Development of innovative strategies to enhance DNA vaccine potency." Invited Speaker, Education Section for Transgene Immunology, 5<sup>th</sup> Annual Meeting of the American Society of Gene Therapy, Boston, MA
- 2002 "Immunotherapy for gynecologic malignancies." Invited plenary speaker, The Satellite Symposium "Management of recurrent gynecologic malignancies" for the 9<sup>th</sup> Biennial Meeting of the International Gynecologic Cancer Society, Taipei, Taiwan.
- 2002 "DNA vaccines for cancer." Invited speaker, Surgery Branch of the National Cancer Institute, Washington, DC
- 2002 "Development of cell mediated immunological assays for HPV." Invited speaker, DAIT Immunology Centers Meeting, NIAID/NIH, Washington, DC
- 2002 "Development of vaccines and immunotherapeutic strategies for HPV-associated cancers." Invited speaker, Wayne State University Karmanos Cancer Institute, Detroit, MI.
- 2002 "Development of vaccines and immunotherapeutic strategies for HPV-associated cervical cancers." Invited Speaker, Grand Round of USC Cancer Center, USC, Los Angeles, CA
- 2003 "DNA vaccines for antigen-specific cancer immunotherapy" Invited Speaker, Department of Immunology, Mayo Clinic and Mayo Graduate School, Rochester, MN.
- 2003 "Improving DNA vaccine potency via modification of professional antigen presenting cells" Invited Speaker, the 5<sup>th</sup> Annual Walker's Cay Colloquium on Cancer Vaccines and Immunotherapy, Walker's Cay, Bahamas.
- 2003 "DNA vaccines for cancer immunotherapy" Invited Speaker, Basic Science Seminar, Oncology Center, Loyola University, Chicago
- 2003 "DNA vaccines for HPV-associated malignancies: from Bench to Bed Side" Invited Speaker, The 27<sup>th</sup> Clinical Research Seminar, Department of Health, Taiwan
- 2003 "Development of HPV DNA vaccines for AIDS patients" Invited Speaker, the Seventh International Conference on Malignancies in AIDS and Other Immunodeficiencies: Basic, Epidemiologic and Clinical Research., Washington, DC.

- 2003 "Antigen processing and therapeutic vaccines" Invited Speaker, Women's Interagency HIV Study mini symposium, Washington, DC.
- 2003 "Development of innovative DNA vaccines against SARS" Invited Speaker, DAIT Biodefense Meeting, NIAID/NIH, Washington, DC.
- 2003 "DNA vaccines for cancers" Invited Speaker, Pediatric AIDS Clinical Trials Group Meeting, NIAID/NIH, Washington, DC.
- 2004 "DNA vaccines for HPV-associated cancers" Invited Speaker, Grand Round, Department of Dermatology, The Johns Hopkins University, Baltimore, MD.
- 2004 "Development of human immunological assays for HPV vaccines" Invited Speaker, Head and Neck SPORE workshop, Georgetown, Washington DC.
- 2004 "DNA vaccine for cervical cancer: from bench to bed site." Invited speaker, First International Tumor Immunology Symposium, Seoul, South Korea
- 2004 "DNA vaccines for cancer" Invited Speaker, Molecular Immunology, 10<sup>th</sup> SCBA International Symposium, Beijing, China
- 2004 "DNA vaccines for HPV" Invited Speaker, 17th Annual Meeting of AMLI, Baltimore, MD.
- 2004 "DNA vaccines for cervical cancer" Invited speaker, Center for Pharmacogenetics, University of Pittsburgh School of Pharmacy, Pittsburgh, PA.
- 2005 "DNA vaccines for cancers" Invited speaker, Department of Immunology, Baylor College of Medicine, Houston, TX.
- 2005 "DNA vaccine for HPV-associated cancers" Invited speaker, Microbial Immunity and Vaccine Development Research Seminars, Department of Molecular Microbiology and Immunology, The Johns Hopkins University, Baltimore, MD
- 2005 "A new mechanism for tumor evasion" Invited Speaker, EMBO Structural Biology, Siena, Italy
- 2005 "Therapeutic HPV vaccines" Invited Speaker, AACR Frontiers in Cancer Prevention Research, Baltimore, MD
- 2005 "HPV vaccines for treatment and prevention of cervical cancer" Invited speaker, "Estern Pennsylvania Branch, American Society for Microbiology on "STD and other Genital Tract Infections: Current Status and Future Trends" Philadelphia, PA
- 2005 "New technologies in the future medicine" Invited speaker in Korea University Centennial Celebration Symposium, Seoul, South Korea
- 2006 "Strategies to enhance PMED DNA vaccine potency" Invited speaker, DNA Vaccine by Gene Gun Meeting at Magdalen College, Oxford England.
- 2006 "Innovative strategies to enhance DNA vaccine potency" Invited speaker, City of Hope Hospital, Los Angelas, CA
- 2006 "Enhancing DNA vaccine potency using RNAi technology" Invited speaker, The 4<sup>th</sup> International Workshop on DNA vaccines, The Castle Trest, Czech Republic
- 2006 "Cancer immunotherapy using RNAi technology" Invited Speaker, the Fourth Annual RNA Interference meeting, San Francisco, CA
- 2006 "Immunotherapy and immune evasion" Invited speaker, the 11<sup>th</sup> SCBA meeting Vaccine and Antiviral Therapy Workshop, San Francisco, CA
- 2006 "Combinatorial immunotherapies to amplify vaccine-induced immunity" Invited speaker, the National Cooperative Drug Discovery Group (NCDDG) Program, Houston, Texas
- 2006 "Therapeutic HPV vaccines" Invited speaker, "Keerti Shah Day" Department of Molecular Microbiology and Immunology, The Johns Hopkins University, Baltimore, MD.

- 2006 "Immunotherapy and immune evasion" Invited Speaker, HIV and AIDS Malignancy Branch Seminar Series, NCI, Bethesda, MD
- 2006 "Development of therapeutic HPV vaccines" Invited speaker, Comprehensice Cancer Center, University of Alabama at Birmingham, Alabama
- 2006 "Development of Therapeutic HPV vaccines" Invited speaker, North America Taiwanese Medical Association, Baltimore Chapter, Baltimore, Maryland
- 2007 "Cancer Immunotherapy and tumor immune evasion" Invited speaker, Gene Therapy and Vaccines Program. University of Pennsylvania, Philadelphia, PA
- 2007 ""Papillomaviruses and Human Cancer: What is Next?" invited speaker, Longrifles Conference, The Johns Hopkins University, Baltimore, Maryland.
- 2007 "Development of therapeutic HPV vaccines" invited speaker, DNA Vaccines 2007, Malaga, Spain
- 2007 "A morphologists view on reflex HPV testing versus reflex cytologie" Invited speaker, the Belgian Society for Clinical Cytology, Antwerp, Belgian
- 2007 "Cancer Immunotherapy and tumor immune evasion" invited speaker, Department of Pathology, University of Alabama at Birmingham, Alabama
- 2007 "Cancer Immunotherapy and tumor immune evasion" invited speaker, Vaccine Branch , NCI, Bethesda, MD
- 2007 "Development of therapeutic HPV vaccines" invited speaker, the 58<sup>th</sup> World Congress of Obstetrics and Gynecology, Monterrey, Mexico
- 2007 "Cancer Immunotherapy and tumor immune evasion" invited speaker, Cancer Vaccines/Adjuvants/Delivery for the Next Decade, The German Cancer Research Center, Heidelberg, Germany
- 2007 "DNA vaccines for cervical cancer: from bench to bed site". invited speaker, Korean Society of Medical Biochemistry & Molecular Biology. Seoul, South Korea
- 2007 "Antigen-Specific Cancer Immunotherapy" invited speaker, Ansan hospital. Seoul, South Korea.
- 2008 "Cancer Immunotherapy and tumor immune evasion" invited speaker, Translational Research, Department of Oncology, Johns Hopkins Hospital
- 2008 "Development of innovative preventive and therapeutic HPV Vaccnies-post Gardasil era" invited speaker, Advanced Molecular Pathology, 2008 USCAP meeting, Denver, CO
- 2008 "Cancer immunotherapy using DNA vaccines" invited speaker, UC Davis Cancer Center, California
- 2008 "Development of innovative therapeutic HPV vaccines" invited speaker, International Committee on viral oncology research, Philadelphia, PA
- 2008 "Development of innovative preventive and therapeutic HPV Vaccnies-post Gardasil era" invited speaker, CAMS, New York, NY
- 2008 "Therapeutic vaccine strategies and measures important in vaccine trials" invited speaker, Eurogen, Nice France
- 2008 "Efficacy of HPV Vaccination for Prevention of Cervical Cancer-post Gardasil Era" invited speaker, Hong Kong Cancer Institute/AACR International Conference, Hong Kong, China
- 2009 "Therapeutic vaccines for cervical cancer: from bench to bed side" invited speaker, Asian Pacific Medical Student Symposium, Taipei, Taiwan, R.O.C.
- 2009 "Development of innovative therapeutic HPV vaccines" invited speaker, Vrial Oncology Group, Johns Hopkins University, Baltimore, MD

- 2009 "Therapeutic HPV DNA vaccines for clinical trials" invited speaker, Department of Biophysics, Arizona State University, Phoenix, AZ
- 2009 "Cancer immunotherapy for cervical cancer: from bench to bedside" invited speaker, Department of Pathology, University of Maryland, Baltimore, MD
- 2009 "Development of innovative therapeutic HPV vaccines" invited speaker, Department of Microbiology and Immunology, Penn State University, Hersey, Pennsylvania
- 2009 "Perspectives in the preventive and therapeutic HPV vaccines" invited speaker, Department of Microbiology, Albany State University, Albany, New York.
- 2009 "New Vaccines for cervical cancer" Invited speaker, BIT's 2nd Annual Congress and Expo of Molecular Diagnostics (CEMD-2009), Beijing.
- 2009 "Perspectives for HPV Vaccine Development" Invited key-note speaker, Formosan Medical Association, Taipei, Taiwan.
- 2010 "Perspectives for HPV vaccine development for cervical cancer" Invited speaker, The Bangladesh Society of Biochemistry and Molecular Biology, Dhaka, Bangladesh.
- 2010 "Therapeutic HPV Vaccine Development" Invited speaker, 2010 DNA Meeting, New Orleans, LA.
- 2010 "Perspectives for HPV Vaccine Development" Invited speaker at Medical College of Georgia.
- 2010 "Development of Therapeutic HPV Vaccines: from Bench to Bedside" Invited speaker, Stem cell and Gene therapy Clinical Trials Symposium, Chang Gung Memorial Hospital, Taipei, Taiwan.
- 2010 "Antigen Specific Cancer Immunotherapy for Gynecological Malignancies" Invited speaker, BIT's 3<sup>rd</sup> World Cancer Congress 2010, Singapore
- 2010 "Perspectives for preventive and therapeutic HPV vaccines" Invited speaker, Institute of Molecular and Cell Biology, Singapore.
- 2010 "Therapeutic HPV Vaccine Development" Invited speaker, BIT's 1<sup>st</sup> World Congress of Virus and Infections 2010 (WCVI-2010), Busan, South Korea.
- 2010 "Perspectives for HPV Vaccine Development" Invited speaker, Zhongshan School of Medicine at Guangzhou, China.
- 2010 "Perspectives in Preventive and Therapeutic HPV Vaccines for Cervical Cancer" Invited speaker, 15<sup>th</sup> Conference on Healthcare of the Chinese in North America, CAMASC, Los Angeles, California
- 2010 "Perspectives for therapeutic HPV vaccine development" Invited speaker, Gene-based Vaccines meeting 2010, Cannes, France
- 2010 "Perspectives for HPV Vaccine Development" Invited speaker, Tumor Immunology and Immunotherapy Program, Roswell Park Cancer Institute, Buffalo.
- 2011 "Enhancement of DNA tumor vaccines via Toll-like Receptor Ligands" Invited speaker, AACR Annual Meeting - Session on Innate Receptors and Cancer, Orlando.
- 2011 "Therapeutic vaccine approaches" Invited speaker, EUROGIN 2011 congress, Lisbon.
- 2011 "Molecular Pathology and Personalized Medicine" Invited speaker, 7<sup>th</sup> Asia Pacific IAP Congress, Taipei, Taiwan
- 2011 "Control of HPV-associated Cancer through Combined Treatment with Death Receptor 5specific Antibody and Therapeutic HPV Vaccines" Invited speaker, BIT's 3<sup>rd</sup> Annual International Congress of Antibodies-2011, Beijing, China
- 2011 "Perspectives for Preventive and Therapeutic HPV Vaccine Development" Invited speaker, Karmanos Cancer Institute, Detroit, Michigan

- 2011 "Perspectives for Therapeutic HPV Vaccine Development" Invited Speaker, International Symposium on Human Pathogenic and Oncogenic Viruses, Taipei, Taiwan, R.O.C.
- 2011 "Antigen-specific Cancer Immunotherapy using Calreticulin" Invited Speaker, 9<sup>th</sup> International Calreticulin Workshop, Copenhagen, Denmark
- 2012 "Innovative strategies to break immune tolerance using DNA vaccines" Invited Speaker. Viral Oncology Group, The Johns Hopkins University, Baltimore, MD
- 2012 "Development of Therapeutic HPV Vaccines: from Bench to Bedside" Invited Speaker. UNM Interdisciplinary HPV Prevention Center. University of New Mexico, New Mexico
- 2012 "Treatment of melanoma combining cancer gene therapy and immunotherapy" Invited Speaker, Melanoma Research Alliance Fourth Annual Scientific Retreat, Washington DC
- 2012 "Development of cancer vaccines by engineering antibody to break immune tolerance" Invited Speaker, 4<sup>th</sup> International Congress of Antibodies-2012, Beijing China
- 2012 "Cancer Immunotherapy for HPV-Associated Malignancies" Invited Speaker, 17th Taiwan Joint Cancer Conference (TJCC), Taipei, Taiwan
- 2012 "Therapeutic HPV vaccines" Invited Speaker, Zhangjiang Forum on Translational Medicine, from Research to Commercialization, Shanghai, China
- 2012 "Innovative Therapeutic HPV vaccines" Invited Speaker, World Congress of Microbes-2012, Guangzhou, China
- 2012 "Perspectives for Preventive and Therapeutic HPV Vaccine Development" Invited speaker, Department of Biology and Biochemistry, University of Houston, Houston, Texas
- 2012 "Development of Therapeutic HPV Vaccines: from Bench to Bedside" Invited Speaker, Emerging Market for Biopharmaceutics: Opportunities and Challenges, CBA, Qiangdao, China
- 2012 "Innovative Strategy to Overcome Immune Tolerance" Invited Speaker, 6<sup>th</sup> International Conference on Cell Therapy, Seoul South Korea
- 2012 "Perspectives for HPV Vaccine Development" Invited Speaker, Immunology Program Lee Moffitt Cancer Center, University of South Florida, Temple, Florida
- 2012 "Innovative treatment for cervical cancer" Invited speaker, Georgia Health Sciences University Cancer Center, Augusta, Georgia
- 2013 "Innovative HPV Vaccines" Invited Speaker, 2013 Asian Pacific Medical Student Society meeting, Taipei Taiwan
- 2013 "The Employment of Antibody to Overcome Immune Tolerance for Cancer Immunotherapy" Invited Speaker, 5<sup>th</sup> International Congress of Antibodies, Hangzhou, China
- 2013 "Overview of Therapeutic Vaccination and Other Immunomodulatory Strategies" Invited Speaker, Icahn School of Medicine at Mount Sinai, New York, NY
- 2013 "Innovative Therapeutic HPV Vaccines for HPV-Associated Malignancies" 2013 SCBA Biannual Meeting, Xi-An, China
- 2013 "Innovative Treatment for HPV-Associated Cervical Cancer "Invited Speaker, UCSF HIV-Malignancies Symposium, San Francisco, California
- 2014 "Future HPV Vaccines and Considerations for Implementation in Developing Countries" Invited Speaker, 2014 Conference of Asia Oceania Research Organization on Genital Infections and Neoplasia. Beijing, China
- 2014 "Innovative Therapeutic Vaccines for Persistent HPV Infections" Invited Speaker, 2014 6<sup>th</sup> Annual World Congress of Vaccines, Dalian, China.
- 2014 "Innovative Treatment for HPV-Associated Cervical Cancer" Invited Speaker, 11th

International Conference of the Asian Clinical Oncology Society, Taipei, Taiwan.

- 2014 "Perspectives for HPV Vaccine Development" Invited Speaker, National Health Research Institutes, Taiwan, R.O.C.
- 2014 "Perspectives for HPV vaccine development" Invited Key-note Speaker, 11<sup>th</sup> Japanese Gynecological Oncologist Conference, Kumamoto, Japan
- 2014 "Impact of HPV vaccines on clinical management of HPV-associated diseases" Invited Speaker, Shanghai 10<sup>th</sup> People Hospital, Shanghai, China
- 2015 "HPV Immunology: an update" Invited Speaker 2015 Eurogin, Sevilla, Spain
- 2015 "Immune responses to HPV therapeutic vaccines" Invited Speaker, 2015 Eurogin, Sevilla, Spain
- 2015 "Perspectives for HPV vaccine development" Invited Speaker, 2015 Cancer Symposium, Seoul, South Korea
- 2015 "Cancer Immunotherapy against HPV-Associated Malignancies" Invited Speaker, 2015 The Genomics Research Center of the Academia Sinica, Taipei, Taiwan.
- 2016 "Antigen-Specific Cancer Immunotherapy Targeting HPV Oncogenic Proteins" Invited Speaker, Translational Science Symposium, Loyola University, Chicago IL
- 2017 "Cancer Immunotherapy Targeting HPV-Associated Malignancies" Invited Speaker, China Medical University, Taiwan, R.O.C.
- 2017 "Personalized Medicine: Control of HPV-Associated Malignancies." Keynote Speaker, 2017 Annual Taiwanese Pathology Association, Taipei, Taiwan, R.O.C.
- 2017 "Perspectives for HPV vaccine development." Invited Speaker. Kaohsiung Chung Gung Memorial Hospital, Kaohsiung, Taiwan, R.O.C.
- 2018 "Perspectives for HPV Vaccine Development". 31<sup>st</sup> Symposium of Newly Elected Academicians, Academia Sinica, Taipei, Taiwan.
- 2018 "Past, Now, and Future in HPV: From Cancer Research to Vaccine Development". 2018 Investigators Talk, National Taiwan University, Taipei, Taiwan.
- 2018 "Innovative Antigen-Specific Immunotherapy for the Control of Cancer". Invited Speaker, Taipei Medical University, Taipei, Taiwan.
- 2019 "Innovative strategy for antigen-specific cancer immunotherapy" The 3<sup>rd</sup> Catholic International Symposium of Gynecologic Oncology, The Catholic University of Korea, South Korea.
- 2019 "Innovative Antigen Specific Cancer Immunotherapy" Cervical Cancer SPORE Director, GYN SPORE Workshop, Atlanta, GA.
- 2021 "Development of Therapeutic HPV Vaccines: From Bench to Bedside". Invited Speaker, Center for Virology and Vaccine Research Seminar Series, Boston, MA.

# OTHER PROFESSIONAL ACCOMPLISHMENTS

January 1998- January 1999

President of the Society of Chinese Bioscientists in America (SCBA), DC Chapter

January 2000-January 2001

Secretary-Treasurer of International Association of Chinese Pathologists

## January 2001-January 2003

President-Elect of International Association of Chinese Pathologists

January 2003-July 2005 President of International Association of Chinese Pathologists

March 2004-February 2005 President-Elect-Elect of the Binford-Dammin Infectious Disease Society

March 2005-February 2006 President-Elect of the Binford-Dammin Infectious Disease Society

March 2006- February 2007 President of the Binford-Dammin Infectious Disease Society

January 2010- December 2015

Co-Executive Director of the Society of Chinese Bioscientists in America (SCBA)
